ANALOGY

Delivering International Flavors for the Local Market

The continuing growth of the middle class in Indonesia, and an increase in disposable income, is stimulating an interest in more diverse tastes and a greater appreciation of lifestyle. By combining its distribution and food preparation expertise with the specialized skills of its highly experienced retail partners, PUPAT through café brand Analogy becomes the main solution for that demand. We provide this demand directly to the customers.

High Quality Ingredients, Hygienic Processing Techniques

Our pastry and bakery are both safe and delicious to consume. All productions are supported by a proven system and international standards with rigorous quality control. The quest to deliver top quality products starts with the selection and sourcing of the best ingredients. To ensure the safety, quality, hygiene, and consistency, our infrastructure has been set up for full traceability that helps to coordinate with partners and suppliers.

Grass Roots Impact in the Communities Where We Operate

As our group owes its success in no small part to the support and encouragement of the communities and stakeholders around it, PUMS exists to give grass roots impact in the communities where we operate, through community development and Corporate Social Responsibility initiatives by working closely with local farmers to improve their produce.

Community Involvement

Engaging with all stakeholders including customers, suppliers and partners, PUMS strives to identify grass-roots ways where we can make a real difference. We invite numerous experts with different backgrounds who actively participate to exchange knowledge about contemporary farming techniques, helping them to improve the quality of their products and increase the possibility of becoming one of PUMS suppliers.

Through this holistic approach, PUFR shares the benefits with its partners and the community in a tangible manner, making them partners in our endeavor and giving them a shared stake in the success, for long-term mutual benefit.
